

# Because gardening makes everyone feel good!

  
Opération  
tournesol

Dear Parent,

Your child recently discovered the pleasures of gardening and the benefits of plants by participating in **Opération Tournesol**. With all the friends in their class, they were able to plant and watch their sunflower grow. Let's hope they can watch the flower bloom at home!

In addition to providing an enjoyable and enriching experience, **Opération Tournesol**, which benefits **Opération Enfant Soleil**, raises students' awareness of sick children... because gardening is good for everyone!

Your child brings home their sunflower today. We invite you, on a voluntary basis, to exchange the plant for a donation that will be added to those of the other students in their class. All the money raised will be donated by Québec Vert to **Opération Enfant Soleil** during the Telethon next June.

If you would like to make a donation, we invite you to go to [operationtournesol.quebecvert.com](http://operationtournesol.quebecvert.com) under the "Make a Donation" tab or send your cash or check donation to the school by the due date. If you do not wish to participate, we still invite you to keep the sunflower.

On behalf of all sick children, thank you for your wonderful generosity!
